Upcoming FIU Computer Science graduate seeking an internship in Software or Web Development. Eager to learn new technologies and improve skillset. Strong academic performance and willingness to communicate and cooperate with others.

Education

Florida International University / B.S. Computer Science, Minor in Mathematical Sciences

Fall 2019 – Present (Expected Graduation Summer 2022), Miami, FL

Honors: GPA: 3.850/4.0 | Dean's List (every semester)

- **Relevant Academic Courses:** Programming I & II (Java), Systems Programming (C), Advanced Windows Programming (C#), Data Structures, Database Management, Calculus I, II & III, Physics with Calculus I & II, Discrete Mathematics, Differential Equations, Linear Algebra.

Professional Experience

RC Interiors Inc. / Construction Estimator and Technological Services

Summer 2019, Miami, FL

- Led transition to a software-based solution to drywall, acoustical ceiling, and insulation estimates, rather than performing them physically. Increased workplace efficiency about three-fold.
- Purchased a domain and constructed an official website using WIX.

Projects

Personal Portfolio Website / Design and Development

Design and Development, Winter 2021

- An ever-growing website that receives constant changes as I become more familiar with different technologies. My first exposure to ReactJS, HTML, and CSS.
- Check it out at https://ricardocolom64.github.io/portfolio-website/ (proper domain name coming soon...)

Skills

Languages and Technologies

- Java, C, C#, HTML, CSS, ReactJS, Unity, Blender, Git.
